## Local artist's life of colour

THE official opening for local artist Jeffrey Baker's Life of Colour, Exhibition of Fine Art, was held last night at the Quality Resort Nautilus.

The exhibition is an explosion of colour with over 45 original art works on display, with this year's feature the release of a large new selection of limited edition original prints.

His paintings are continually changing and have been described as a fascinating view of contempo-

rary land and seascapes with surreal concepts using a full palette of colour, producing a feast of contemporary design in modern Australia painting.

Each year the exhibition grows more popular with many people travelling long distance and interstate to view and purchase Jeffrey's art work.

The exhibition is open daily from 10.30am to 6pm at the Quality Nautilus Resort until January 19.
